Early-morning alarm service
Posing on request, sometimes

Education

School of Sunbeams
Nap studies, with honors

Institute of Cardboard
Certificate in box selection and occupancy

Moose

Domestic tabby and professional observer, seeking a supervisory role with generous lap access.

Profile

A calm, detail-oriented tabby who does his best work in silence. Known for a stare that settles arguments, a symmetrical face that photographs well from any angle, and a firm belief that every open book is a seat.

Experience

Head of Library Security

The fantasy shelf 2024 to now

Holds a daily post in front of the good books. Maintains eye contact with anyone approaching the shelf until they explain themselves, and has personally sat on every volume in the second row.

Senior Portrait Model

In-house studio 2024 to now

Delivers a perfectly centered headshot on the first take. Range includes mild concern, deep concern, and the look that means he heard the treat bag two rooms away.

Director of Snack Inquiry

Kitchen floor Ongoing

Developed the upward gaze: pupils wide, mouth closed, whiskers forward, total stillness. Humans exposed to it report being unable to say no.

Quality Assurance, Soft Furnishings

Whole household Ongoing

Tests every blanket, laundry pile and freshly vacated chair for warmth. Findings are delivered by lying on them for several hours.

Distinguishing marks

The M on his forehead. Classic tabby signature. Stands for Moose, obviously.

A crisp white bib. Always dressed for the interview.

Natural eyeliner. Dark rims and pale lower lids that make every look more serious.

Freckled whisker pads. Small dark spots along the muzzle, unique to him.

“He looked at me until I gave him the chicken. I would hire him again tomorrow.”

His human, and primary reference
